Correct Forms for Trust Deeds...

MOST of those in California who are in the business of loaning money on real estate security prefer the TRUST DEED whether for the first or for junior liens.

The wording of a Trust Deed is important. The ordinary form is often inadequate for special circumstances. Security-First National Bank has prepared several forms of Trust Deeds to fit varying needs with the changes made necessary by recent legislation.

We have printed an extra supply of these "legal blanks," prepared by competent and experienced attorneys, framed in words whose exact meanings have been determined by the courts.

Attorneys may obtain forms at any Security-First branch or office. There is no charge for them.
